

TEST REPORT

GreensGroomer

Mr. Tom Moore
P.O. Box 34151
Indianapolis, Indiana 46234 USA

Date: February 8th, 2011

Report # : 10628 CANR / 11156 CANR

Samples # : CAN000292, CAN000293, CAN000294, CAN000295.

Subject: Assessment of the effects of maintenance machinery on four synthetic turf fibers.

| Product tested |
|--|
| Maintenance was performed by placing the samples under direct germicidal UV-C energy (254nm) for 1, 6, and 24 hours: |
| <ul style="list-style-type: none">CAN000295/sample #8 (Nothing other than UV-C light touched the turf during the maintenance) - Control sampleCAN000292/sample #5 (1 hour exposure (translates to 8 years of twice daily use))CAN000293/sample #6 (6 hours exposure (translates to 50 years of twice daily use))CAN000294/sample #7 (24 hours of exposure (translates to approx. 200 years of twice daily use)) |
| Note 1: Maintenance has been carried out by GreensGroomer on new fibers. |
| Note 2: All the results in the pages below only refer to the tested samples received at the laboratory. |

| Pick up samples conditions |
|---|
| Received at the laboratory, January 3 rd , 2011. |

| Tests conditions |
|---|
| Sample conditioning: <ul style="list-style-type: none">- Sample conditioned to 23°C / 50 % R.H.- Sample tested: Month of January 2011. |

This report contains 20 pages. It may not be used for commercial purposes, unless it is reproduced in its entirety. The results are valid only for the complete system as described in this report.

LABOSPORT

General conclusion:

According to the observations and statistical analysis and treatments on the testing results, no significant difference is detected between the four samples. Therefore, we can conclude that the maintenance treatment that Greensgroomer applied to the turf samples has no major damaging effect on the structure and integrity of the turf fibers.

Note that this does not prevent damage that could occur to a turf installation in the case where the maintenance machinery is not operated as per the manufacturer's guidelines and instructions.
